

## Prince William County, VA

### Labor Market :

Employment declined by 1,194 jobs in January and February. The job losses brought about an increase in the average monthly unemployment rate from 2.2% in the fourth quarter to 2.6% for the first two months of the first quarter. Despite the job losses, the job situation still remains strong in Prince William County. Combined with historically low mortgage rates, home sales should continue at a steady pace.
